“ We did the dark park sky gazing tour and I will remember that night for the rest of my life. It was the first time to really see the Milky Way with 2 astronomers being incredibly helpful. Kelly was a wonderful host and I would recommend this trip to everyone.

Star Gazing at its Best!

Wow, the universe certainly knows how to put on a stunning twinkling light show. This is definitely something to see and all South Australians (and especially those from Murrumbidgee) should be so proud to see the home of this tour. It's interesting, unique, educational and fun.

Thank you Kelly for being so welcoming and creating such a well organised tour. If you're looking for something a little different, this is a must!

WOW, WOW and WOW!

Fabulous tour by the friendly and energetic Kelly. Amazing views and sunsets, warm, engaging and reflective tour by kayakers and assistants at Ngarru Aboriginal, lovely Pub Meal at Swan Reach, and finished off with the incredible night skies, organised by the knowledgeable Joe. The combined passion for what they were all doing, and the wonder of this beautiful place at Adelaide's doorstep, was very special. Will forever look at the night sky differently.
